I am a **competent** and **dedicated** professional, with previous experience in various roles that have provided me with valuable skills, both in **teamwork** and on an individual level. I am looking for an opportunity to apply my training and experience for the benefit of the company, contributing to its growth and my **continuous learning**. I am an **organized** person and **committed** to excellence in all the tasks I perform. I am excited to face **new challenges** and continue my professional development.

Academic Path

Degree in Computer Engineering

(september 2022 – in progress)

Throughout the course I maintained an active stance and learned to be self-taught. I made an effort to combine a full-time job with my studies and combine other experiences that enrich my experience.

I developed information processing skills, learned to interact with people and use new models to solve problems

Python for non-programmers

(September 2023 – October 2023)

With this course I gained fundamental notions of programming, variables, data input and output, conditional code execution and sequential code execution, structuring programs, automating tasks. How to manipulate files and images. How to use the Python ecosystem that allows you to add +300,000 extensions to the language to apply to any domain/problem and how to develop knowledge autonomously.

Extracurricular activities

Former- Federated Rugby (Ubuntu) (2009- 2013)

Where I acquired teamwork skills and participated in several tournaments from North to South of Portugal.

Volunteering – Food Bank

(Various moments of action between 2015 and 2019)

I gained greater awareness of the community's needs and greater personal fulfillment.

Enneagram Course – Level II (2019)

The enneagram is a tool for self-knowledge and self-improvement, where nine numbers represent a basic psychological type corresponding to personality formats.

Professional experience

Mac Donald's Trainer

(June 2015-June 2016)

This experience gave me the basis for direct contact with the public and leadership of a team, continually training, coordinating the line of cashiers and exits from the kitchen.

car painter

(July 2018 – August 2022)

The JAP company invested in learning with specific training in car painting, where I learned how to prepare vehicles before painting, mix paint to match the required color, inspect defects and ensure a smooth finish, polish and wax. I solidified teamwork in this area.

Car painter

(September 2022 – currently)

With the recognition of the experience demonstrated, I reached the category of 1st painting officer, applying previously acquired knowledge, working independently. Added to all the values previously acquired in the previous company, the greatest responsibility.

Digital skills/competencies

- Good command of Office programs;
- Good relationship and team collaboration;
- Problem solving.

Programming

Knowledge of Html and C
Good knowledge of Python
Knowledge of SQL database

Languages

Native Portuguese;
English – B2
Spanish – A2
